Design is a constant exploration of creation and destruction; of cacophony and utter loneliness. We need space. We need spaces. We need spaces where we argue, spaces where we play, spaces where we rest, spaces where we think. Welcome to our space: the IBM Design Studios. At IBM Design, we donâ€™t ...

IBM Design: design in motion

A significant portion of the BSI effort was devoted to best practices that can provide the biggest return considering current best thinking, available technology, and industry practice.

Clean Code: A Handbook of Agile Software Craftsmanship

Scrum is an agile framework for managing work with an emphasis on software development. It is designed for teams of three to nine developers who break their work into actions that can be completed within timeboxed iterations, called sprints (30 days or less, most commonly two weeks) and track progress and re-plan in 15-minute stand-up meetings, called daily scrums.
