3D modeling and analysis software for steel structures. Tekla Structures is a powerful software for steel detailing and analysis. It provides a comprehensive set of tools for creating and analyzing steel structures. The software is used by engineers and architects to design and analyze steel structures, including bridges, buildings, and industrial structures. It offers a wide range of features, including 3D modeling, analysis, and detailing. Tekla Structures is a leading software solution for steel structures, providing a high level of accuracy and efficiency in the design and analysis process.
