The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field.

List of people considered father or mother of a scientific

In chemistry, the valence or valency of an element is a measure of its combining power with other atoms when it forms chemical compounds or molecules. The concept of valence developed in the second half of the 19th century and helped successfully explain the molecular structure of inorganic and organic compounds.

Valence (chemistry) - Wikipedia

The chemistry major curriculum meets American Chemical Society degree requirements for certification and provides a rigorous, comprehensive background in the four primary areas of chemistry, and in elective areas of your choosing.
