Personality psychology is a branch of psychology that studies personality and its variation among individuals. It is a scientific study which aims to show how people are individually different due to psychological forces. Its areas of focus include:

Personality psychology - Wikipedia

An early form of personality type indicator theory was the Four Temperaments system of Galen, based on the four humours model of Hippocrates; an extended five temperaments system based on the classical theory was published in 1958.; One example of personality types is Type A and Type B personality theory. According to this theory, impatient, achievement-oriented people are classified as Type A ...
